

When we do things in love,  
we are bound to have a positive  
influence on the world around us,  
because love has creative power.  
With love we can make a difference.

The Family deeply honors and respects their Majesties, the King and Queen of Thailand. Their Majesties' self-sacrifice and loving dedication to the people of Thailand provide a constant source of guidance and inspiration to Family members of all ages and nationalities. The Family also holds in high regard the unique culture of the Thai nation and considers it a great privilege to work hand in hand with Thai society in offering assistance to the disadvantaged.

# The Family

An International Volunteer Organization

The Family is a volunteer organization whose members aim to be of service to their fellowman. In order to accomplish this goal, members of The Family work alongside other concerned individuals and organizations on various projects to help the needy and underprivileged.

Each member of The Family, whether fulltime or part-time, is motivated by the belief that sincere outgoing love and concern for our fellowman can provide the answers to the complex problems of today's fast-paced society. Although membership is comprised of individuals and families from many different cultural backgrounds, we all have the same motivation and desire: to bring relief, hope and encouragement to those in need. The Family strives to give of themselves with the hope that they can have a positive influence on society. The desire to help their fellowman and to give of their time and their resources is more than an ideal it is a life-long commitment.

We count it a privilege to work in Thailand and greatly admire the Thai people for their self-sacrifice and dedication to their country and culture.

## Projects and Goals

The Family has adopted a broad-based approach in their activities and works in cooperation with people and organizations from all cultural and ethnic backgrounds and religious beliefs. In Thailand, The Family's projects include: educational programs and activities, counseling and motivational courses for children and teenagers in various orphanages, shelters and child protection homes, programs to raise drug awareness, counseling and motivational seminars, disaster relief, visits to encourage and assist the elderly, the infirm and the physically challenged, and conducting early learning seminars for teachers and parents. Counseling services are also offered at prisons, juvenile centers and rehabilitation homes. When needed, volunteers also participate in the physical improvement and renovation of these institutions.

In conjunction with other concerned individuals and companies, The Family regularly donates clothing, food items, educational supplies, construction materials and other basic necessities to schools, orphanages and centers for the underprivileged throughout the country.

Since The Family is a self-supporting organization, our efforts are made possible through charitable contributions from like-minded individuals, businesses and organizations.

### *True Happiness Is Found In Giving!*

While there is a never-ending need for help on a material level, The Family volunteers recognize the importance of concentrating their efforts on extending emotional support, encouragement and comfort to those in need.

In the rapidly-moving, technologically-advanced world of today, The Family believes that a continued emphasis on values such as love, friendship, compassion and caring is necessary to maintaining a balanced quality of life, and can provide solutions to many of the problems and difficulties of society.

*Helping Those in Need*

## Educational/Motivational Programs

Raising happy, healthy and well-adjusted children is the greatest challenge parents face. Recognizing the importance of instilling good principles from an early age to help achieve these goals, The Family has created a wide variety of educational audio-visual and literary materials for children. These are designed to impart and emphasize positive moral values such as kindness, friendship, honesty, appreciation, and many more. Through the kind sponsorship of friend and supporters, The Family has been able to distribute these children's educational materials to many primary schools, orphanages and centers for children throughout Thailand. Seminars are also organized to familiarize the teachers, staff and caretakers in the use of these materials to maximize their effectiveness.

Working with institutions and government agencies, The Family has participated in numerous drug awareness programs, seminars, concerts and therapeutic group activities in schools, colleges, rehabilitation and juvenile detention centers. Combining an anti-narcotic/drug awareness theme with music and drama has proven a successful approach with today's youth.

*Children are the Future*
